

Emmeti Topway Plus Type 2 Manifold

Manifolds are used for controlling water flow in underfloor heating systems. Each zone of the floor heating system is connected to the manifold, thus making it possible to control water flow or heat supply to each room in the building individually.

Emmeti Topway Type 2 manifolds can be used for both underfloor heating and wall hung radiator heating applications. The flow bar on T2 Topway FM has a red sleeved doubled regulating lockshield with a clear flow metering tube and comes supplied with a pressure gauge. The integrated electrothermic valves on the return bar allow for electrical control of each circuit via electrothermic actuators, linked to wall thermostats.

The range includes manifolds from 2 to 12 outlets and is suitable for 16mm and 20mm floor heating systems.

Benefits:

- Nickel plated extruded brass construction
- Using a manifold system will enable you to tailor your heating to suit the building activities by allowing rooms to be controlled individually, preventing rooms being heated when unoccupied. This will offer up to 40% saving on energy consumption
- Flow meters allow the flow to each loop to be adjusted individually.
- Provides you with individual isolation of underfloor heating (UFH) loops if required. You are able to isolate parts of the system whilst the rest remains operational, reducing disruption for installation and maintenance.
- Includes automatic air vents to allow small amounts of air to be vented from the system

Technical Specification

Construction:	Nickel plated extruded brass
Allow zone air temperature control:	Yes
Inlet connection:	1" & 1 1/4" options
Outlet connection:	24 x 19*
Outlet centres:	50mm
Outlets:	2 to 12
Individual circuit isolation:	Yes, each outlet
Maximum operating pressure:	10 bar
Maximum operating temperature:	110°C

*Monoblocco connectors are available to suit pipe sizes 10-20mm and pipe types (PB, PE-Xa, PE-RT, MLCP & Copper). Possible to connect up to 26mm by using the correct sized monoblocco and 32 x 1.5 connector

Stock Code	Product Name	Outlets
01296712	1" Topway Single Loop Manifold	Single Loop
01282260	1" Topway Plus Type 2 Manifold	2
