

Gaia Pro Thermostat

The Gaia Pro is a stylish digital programmable touch screen thermostat, designed to be used with electrical floor heating elements.

A fast and intuitive programmable thermostat which utilises energy saving functions such as sensor offset, holiday mode and frost protection mode to help reduce heating costs.

All Gaia thermostats come with a 2 year warranty.

Benefits:

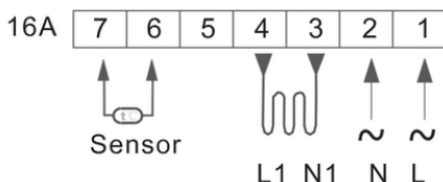

- Large touch screen face
- 7 day, 6 period programme
- Floor temperature limiting function
- Sensor offset
- Frost protection mode
- Holiday mode
- 2 year warranty

Type	Value
Supply voltage	230V
Power consumption	2W
Max current	16A
Housing material	Anti-inflammatory PC
Ambient temperature	-5 – 50C
IP class	IP20

Wiring Diagram:

- Mount the backing plate into the wall socket with a screwdriver
- After connecting the wires (see below), the thermostat can then be mounted on to the backing plate.

Thermostat must be installed by a fully qualified electrician and all wiring must meet most recent wiring regulations.

Thermostat to be installed within a 47mm single-gang back box.
