

Gaia Touch Thermostat

The Gaia Touch is a fully programmable touch screen thermostat, designed to be used with electrical floor heating elements.

Allowing you to set 6 periods each day with corresponding pre-set temperatures, with a choice of either 'manual' or 'period control' mode. Equipped with energy saving functions such as sensor setup and frost protection mode to help reduce heating costs.

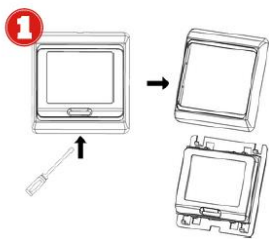

All Gaia thermostats come with a 2 year warranty.

Benefits:

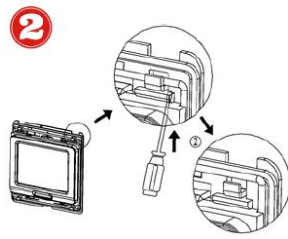

- Touch screen operation
- 7 day, 6 period programme
- Sensor setup
- Frost protection mode
- Screen lock
- 2 year warranty

Type	Value
Supply voltage	230V
Power consumption	2W
Max current	16A
Housing material	Anti-inflammable PC
Ambient temperature	-5 – 50C
IP class	IP20

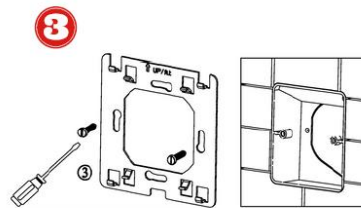

Wiring Diagram:

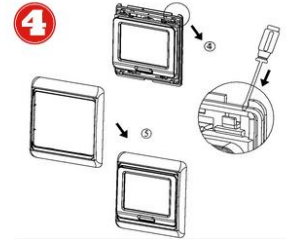

Release the front cover by inserting a screwdriver into bottom crack

Take the backing plate apart as shown above

Install the thermostat into the electrical connection box with screws

Install the housing cover and lock the external frame

Thermostat must be installed by a fully qualified electrician and all wiring must meet most recent wiring regulations.

Thermostat to be installed within a 47mm single-gang back box.
